1248 Kopalnia Soli Bochnia

We invite you to visit the oldest historic rock salt mine in Poland – the Bochnia Salt Mine.

- Located about 40 km from Krakow, the Bochnia Salt Mine offers a tourist route for you to explore. The route leads through one of the oldest and most beautiful excavations of the mine. While travelling along the route you will come
- across a multimedia exposition, which in an accessible and
- modern way shows the development of the mine, salt mining, as well as the history of Poland.

The Mine, inscribed on the UNESCO, has been operating continuously since 1248

Visitors will have the opportunity to see the deepest located Chapel of St. Kinga (212 m underground) and visit the largest salt chamber located 250 meters underground, the Ważyn Chamber in which there is a sports field, restaurant, souvenir shop. The mine is accessed by an authentic mining lift. One of the attractions is the underground mine is train ride and the possibility of ferry crossing at a depth of 225 meters underground.
